

# CONTINUATION OF THE GREAT SALE AT THE GLASGOW WAREHOUSE.

THIS sale will be continued until the end of this month. We remind our friends of the GREAT SALE of goods that we are offering, both in SHIRTS, DAMAGED DRY GOODS, and in DRY GOODS that are NOT DAMAGED AT ALL. We have sold LARGE QUANTITIES of these goods during the last two weeks, but have still a few left that we will close out very cheap, as we must clear them all off by the end of this month. Our purchases for the Fall Trade will soon be to hand in such large quantities, that we must have more room for them. We are offering some Very Cheap Tapestry and Union Carpets. Some VERY FINE UNION CARPETS at as low as 42 cents per yard, and some at 50 cents. They are decidedly the cheapest in the market.

## Daily Intelligence.

Belleville, Monday, July 31.

### City and Vicinity.

FOUR prisoners were in the cells last night. JERRY BELL, Europe, and Miss Bell arrived home from Europe last night. D. COLLINS, Little Clerk, has had his salary raised to \$2 per day. The Cricket Club have decided to allow \$200 to pasture in the cricket field. The rate of assessment of the city for the present year will probably be about 20 mills, all told.

An old Irishman named Michael O'Neil was brought up this morning on a charge of drunkenness. He was discharged. The "Woodbine" Restaurant was opened last night, and was very liberally patronized by the regular frequents of the house. Mr. J. H. BRYAN, who has been for five years in the hardware trade in Chicago, is spending a two weeks' holiday here visiting his relatives.

Mr. and Mrs. J. B. FLYNN have been to Winnipeg by way of the upper lake, going up to the south side and returning on the north side. COL. LAZIER, on behalf of the officers of the 10th Battalion, petitioned the City Council last evening to be allowed the use of \$2,000 towards the erection of a drill shed.

THE KILLER returned to Trenton on Monday morning from a trip to the Thousand Islands, Frenchman's Bay, and the Adirondacks. The cruise was a most enjoyable one.

IT is probable that the "Maple Leaf" Lacrosse Club of Kingston will visit Belleville in the course of two or three weeks for the purpose of meeting matches with the Okeas.

ALD. DICKSON introduced a By-law last evening which provided that no person who had been in the city of Belleville for more than 14 days and had not been in the city for more than 14 days should be allowed to vote in the city.

THE party of gentlemen who went from Belleville to England on board the Allan steamer Parthenon have the honor of having crossed the ocean in the fastest time on record, that being made by the ship in 10 days and 14 hours.

TO day is the anniversary of two important historical events, namely the victory of the British fleet under Admiral Nelson over the French fleet in the Bay of Aboukir (the Nile) in 1798, and the emancipation of the slaves in the British possessions.

THE standing leg yacht Oriole, of Oswego, is with her owner, Mr. John T. Mott, and a jolly party, on a cruise to the little craft and is handsomely fitted out. The Oriole is a fast sailor, but is not much in a light breeze for the Killee Yacht, which easily beats her on the way up.

THE match between the Belleville and Napanee Cricket Clubs to-morrow will well worth the attention of those who take an interest in this noble game. The Belleville team will probably be composed of the following:—W. E. Hodgson, E. Corby, J. D. Clarke, H. Halliwell, F. Farrar, J. Soley, J. Jenkins, W. N. Thomas, W. Feden, E. Reeves, W. Roberts.

ALAN BAKER Joseph H. Parr took possession of a deed in Mr. Burdett's law office yesterday. His father-in-law, it appears, had deeded some property to his daughter three years ago, in order to save it from his creditors, but as he is now dead, the deed was void. Parr married the daughter, very soon learned of this, and persuaded his wife to hold on to the property which was deeded to her. A Picton lawyer was consulted, and he advised that before anything was done it would be necessary to get possession of the undervalued deed, and advise the court that it was void by whatever means he could. It was discovered that the deed was in Mr. Burdett's possession, that gentleman being the legal adviser of the father-in-law of Parr. Edward Farrar called on Mr. Burdett's secretary and told Mr. Parr that the deed was void, that he wished to see the deed. Parr then went to see the deed, and found it in the hands of Mr. Burdett. Parr then went to see the deed, and found it in the hands of Mr. Burdett.

### PLASTER PROBABILITIES—Toronto, Aug. 1.

Lakes, moderate to fresh, winds, mostly east and south, generally fair weather, local showers, possibly thunder.

A GOOD OPPORTUNITY.—A good opportunity of spending a quiet day at the annual picnic of the St. John's Church Sunday School Picnic will be held at the shore of Lake Huron. The steamers will leave the wharf at 9.30 a.m. and 7.15 p.m., returning will leave the Point at 8 and 8.30 o'clock p.m. Tickets 25c, children half price.

INLAND REVENUE.—The following are the sales collections for the division of Belleville, for the month of July, 1892:—Malt, 1,345.00; Tobacco, 1,345.00; Spirits, 1,345.00; Total, 4,035.00.

A RICH CROWD.—That was a crowd of very high-spirited and fastidious young gentlemen who came to Belleville yesterday afternoon on board the excursion steamer "Maple Leaf" to spend the day at the shore of Lake Huron. They were without an exception, the roughest crowd that ever visited Belleville. A crowd of 200 or 300 men, and a few women, were on board. They were without an exception, the roughest crowd that ever visited Belleville.

### A GARDEN OF LABORERS.

THE "OKEAS" AND "EARS."

We speak of the contest between the "Okeas" and "Ears" yesterday afternoon as a "game," because it was not a match, although it might easily have been. That more than one game was not played was due, however, to the fact of the intense heat. Though only one game was played, that game took as long in the playing as many matches. It was fought with an energy and a determination which towards the close of the game grew absolutely fierce on both sides. Play began at 20 minutes past 3, and continued (with two or three brief interruptions caused by foul play) until 5 minutes past 4, when the game was over.

"Oh, I cried Lillith, involuntarily.

"In the meantime, I, out in California,

know nothing of what was going on in the

West Virginia until a month after the

doctor's inquiry—until one day I met with

an old copy of the Intelligencer, and

there, under the heading of your supposed late

The prince looked, but there were no

many guests approaching from the

direction that he could not distinguish

the special person of whom the lady spoke.

Meanwhile the stranger, in question

came on, not pushing his way, but rather

talking, like a crafty waiting maid, and

telling, and suffering himself to be driven

this way and that, but always slowly near-

ing a step.

As he came on, the top of the hour,

the prince of the new beauty—the lovely

Mrs. Wylly—sat in a room at all sides

her grace, her wit, her genius, her ele-

gance, her accomplishments

"Will" he said to himself—Wylly

I must see this belle."

As he sat there, watching the approach

of the stranger, turned to fulfill for an in-

stant—

"My love, I wish you would speak to

dear Aunt Sophie. There she sits, and

Lilith at once turned around, opening

a conversation with the good old lady by

saying—

"What do you think of this?"

"Oh, how I do! I am half dead and half

delighted, you know! I dream to me I

don't know whether I'm in a palace or in

Heaven!" replied the dame and delighted

old lady.

Meanwhile the stranger came up to the

bridal group, bowed low before the prince,

bowed to the princess, and then spoke the

required words of congratulation, and

about to pass on and give place to others

who were pressing forward to pay their

respects when the prince, in a light

dancing hand upon him, said—

"Pardon. One moment, if you please. I

wish to introduce you to a fair companion

of yours."

Thank your highness. I shall be most

happy to meet the new-come."

"Lilith, my love, said the prince, in a

low voice, to carry a bouquet of rare

Lilith turned at once.

"Mrs. Wylly, my dear, permit me to pre-

sent to you Mr. Taylor Howard, American

Charge d'Affaires to our court."

## The Pacific Railway.

The work of constructing the Pacific Railway through the mountains of British Columbia is one of the greatest feats of engineering that was ever undertaken on the continent. The following statement of the work contributed by Chief Engineer Tilton, of the Orendorck contracts, to the Railway Register will give a realising sense of the magnitude and difficulties of the undertaking.

Five thousand men will be put on the line between Port Moody and Emory, and a like number on the Fraser River. The work thus far on the Fraser River has resulted in the completion of 33 miles of track, under the contract secured in 1880, and 1,200 men have been at work for eighteen months, and the grade from the 60th to the 90th mile is nearly completed. The work from Emory to Thompson River, a distance of 60 miles, is probably the most difficult and expensive on the North American continent. Fraser River is bordered with rugged mountains of solid granite from 6,000 to 8,000 feet high. In the first 17 miles there are 12 tunnels, 4 in one mile and 5 in another two miles. Mr. Orendorck's contracts include, in addition to the new one above mentioned, the line from Emory to Kamloops, a distance of 127 miles, which was originally divided into four contracts. The total number of tunnels is 27, and the longest is 1,500 feet. Six tunnel drills, operated by compressed air, were used at each end, and the advance was made every 24 hours. On the division above Emory there are no less than 600 tunnels and bridges, and in the last 35 miles more than 100. The embankments at formation level are seven feet wide and on 22 feet deep. Tunnels are twenty-two feet wide, and twenty-one feet high. None other than fifty-eight pound steel rails are used.

In the upper section of the work there are 10,000 cubic yards of earth excavation, 3,000 cubic yards of rock, exclusive of tunnels, and 2,000,000 cubic yards of little rock and cemented gravel excavation. Between 30,000 and 40,000 cubic yards of timber, board measure, are required for the structure over the entire contract. The rock is of the hardest compact granite, in which often occur wide and extremely hard quartz veins. For miles the rock is literally hewn out of the sides of the mountain, and approaches to many of the tunnels are "galleries"—i.e., the cliffs are left overhanging the roadway, unsupported by any outer wall. At the eastern approach to tunnel No. 7, for over 100 feet the hill is galloped and overhanging the roadway, which is an almost perpendicular precipice of 200 feet. The Fraser River rises at many places 100 feet. At Hell Gate, which closely resembles the Dallas of the Columbia, the river is but 120 feet wide. The first tunnel is at the north end of Yale, and the first four happen within a mile and a half of the town. It required eighteen months to build the first two miles, working tunnels, night and day. The one point six tunnels are visible at a glance. Grades and curves are moderate, the heaviest grade being fifty feet to the mile. The company have constructed a pack trail along ten miles the line at a cost of \$6,000. Transportation by pack means that the backs of men and mules over that distance was impossible. Although several hundred tons of powder have been used, few lives were lost. Deaths from violence numbered twenty-two. The health of the men is now excellent.

To carry on the work will require the investment of \$700,000 on the "plant" alone. For massiveness and grandeur the scenery is unrivalled in North America, and the cloud effects are beautiful beyond comparison.

The line follows the west bank of the Fraser to a point eight miles below Lytton, where Thompson River empties into the Fraser. Here the latter river will be crossed by an iron and steel bridge to cost \$800,000. The line will then follow the south bank of the Thompson to Kamloops Lake. The contractors have been to the completed by the end of this year 120 miles of grade and have 50 miles of track in operation. The first two miles north of Emory cost the first 200,000 per mile, and eleven miles, from the 18th to the 29th, cost \$175,000 per mile. The average cost per mile of the upper division (along Fraser and Thompson Rivers) will be over \$75,000 per mile. This does not include cost of rails and fastenings, but the work is furnished by the Government. The 212 miles from Port Moody to Kamloops Lake will be exclusive of rails, \$12,000,000. The company have at Yale their own nitroglycerine and powder works, and a capacity of 4,000 lbs. per day, car and machine shops, and all supply departments. They have employed since the beginning of the work from 8,000 to 8,500 men. A considerable portion of the work is done by contract. The work is done by contract on the west bank of the Fraser, and by the Government on the east bank.

## Immigration.

The Ontario immigration returns for the six months ending June 30 have just been compiled by Mr. Spence, Superintendent, Ontario Immigration Department. During this period the total number of arrivals was 50,208, of whom 36,520 went to the United States, 285 to Quebec, 5,904 to Manitoba and 12,219 remained in Ontario.

The total number of arrivals during the first six months of 1881 were 41,364. Of this number 29,517 went to the United States, 237 went to the Province of Quebec, 1,115 went to Manitoba, and the rest 12,009 remained in Ontario.

The nationalities of the immigrants who arrived during the six months commencing Jan. 1882, are divided as follows:—English, 5,272; Irish, 3,456; Scotch, 1,966; German, 523; Scandinavian, 142; Swiss, 12; American, 455; other countries, 90. It will be seen by comparing the figures for the corresponding periods that five times as many went to Manitoba this year as in 1881, while there was no great increase in the total number of arrivals.

## Interesting Question Now is, Will Mr. Mills take legal measures to recover the debt in Parliament for Bothwell, who he claims to have been defrauded?

The speaker is beginning to assert himself in Canada for the millions that he has projected himself in England and Australia. It is fair to say that the "peas and chipper" and "easy" little vagabond has found a home. Dan Dineen, a farmer living near Montreal, threatens to sue the Society for the Prevention of Cruelty to Animals for bringing sparrows to Canada. This year, so far, they have eaten thirty acres of barley, destroyed his potatoes and early vegetables. 5,000 sparrows, he says, are on his land. This year, he says, he has taken the sparrows unless steps are taken to exterminate the sparrows before they become too numerous. The person who introduced the sparrow into Australia and America ought to be confined with the other idiots who brought the Scotch thistle and the English rabbit to New Zealand.

The election of Mr. Bain (Grit) for North Westward has been prosecuted. It is well that the corruption of the self-styled parties should be exposed to the fullest possible extent.

Work on the Murray Canal will be commenced within two weeks. The contractors are men of energy and will push on their operations with vigor.

The *Pictou Gazette* erroneously credits our figures representing the majority obtained by members of the Government and the Liberal Conservatives in the recent election to the *Baltic Herald*. The *Herald's* figures shows that the Grits are Ministers and Grit leaders.

The Mail says: "The Reform Government of Ontario has realized since it has held office just over seven millions of dollars out of the side of Crown lands and Crown timber. The money has, of course, been spent. Ontario's capital, represented as it largely is by territory and timber, is thus disappearing under Mr. Mowat's rule at the rate of about \$700,000 per annum. A short time ago Mr. Pattison sold 1,350 square miles of timber for \$700,000. Now, if it costs \$700,000 or 1,350 square miles of timber annually, in addition to the other revenues, to keep Ontario running, it will not be many years before the province will be a vast empty space. It is impossible to have the pudding and the eating too. It is also impossible to spend the capital upon which the Province commenced business, and at the same time to retain it. As Mr. Mowat is spending it rapidly. One would have supposed that a Government having a desire to further the interests of the Province would have endeavored to keep the concern afloat without drawing on the capital."

The Toronto Mail points out that of the 204 members of the House of Commons who met in Ottawa in 1879, at the first session of the last Parliament, eight died in harness, four accepted judicial appointments, two became Lieutenant-Governors, two were elected to the Senate, three resigned to make way for other members, three were unelected, and twenty-five who presented themselves to the electors at the recent elections were defeated. It is stated, but wrongly, that only fifty-five of the 204 members of 1879 are now entitled to be addressed as M. P.'s. The House of Commons is truly *claque* in its personnel, but it is not very changeable so far as its principles are concerned.

Knowledge reasons exist why Dr. Thomas' Electric Oil should be used by persons troubled with rheumatism, neuralgia, and other pains upon the skin, rheumatic pains, corns, bunions, and other troubles. The reasons are, that it is a speedy, pure, and non-inflammable, whether taken internally or applied externally.

## A New Principle.

The principle upon which "Pain-Expeller" is based is entirely new. It does not sink deep into the flesh, thereby producing excruciating pain, but it acts upon the external covering of the corn, separates it from the underlying tissue, and causes it to fall out, without any pain or discomfort. Let those who are suffering from corns, try it, and they will be ready to recommend it. It will be ready to recommend it. It will be ready to recommend it.

## THE CITY FINANCES.

The Finance Committee Considers Them.

### A MIDNIGHT SESSION.

A meeting of the Finance Committee of the City Council was held last evening. The City Clerk, Mr. Ald. Dickson (chairman), Smith, Melnichuk, Dunnet, Vandusen, Lingham, Laroche, and Holden, and the Mayor were also present.

Messrs. Downey & Preston's petition, asking for an extension of the lease of their waterworks, was referred to a sub-committee to deal with.

A discussion arose as to whether matters connected with the bridge of the city should be referred to the Board of Works or City Property Committee. On motion, it was decided that they should be dealt with by the Board of Works.

The report of the Board of Works was considered and passed.

A number of independent accounts were also considered and passed.

The Chairman then introduced the question of the estimates, and proceeded to read the Alderman's additional printed statement. The principal thing to be considered, he said, was the estimate for the different departments of public expenditure. We could not strike a rat until we knew what our expenditure was going to be. Another item of expenditure which he had overlooked in the last meeting of the Council was interest on overdraft bank balances. This was caused by the necessity of borrowing money from the bank to make up for an overdraft of \$2,000. The overdraft in this item was \$2,000 and \$4,000. The statement which he presented showed the actual income, as distinguished from revenue, for the year 1881, and the actual expenditure of that year. The total income of the year was \$22,356.39, and the total actual expenditure was \$23,319.90—the excess of expenditure over income being \$963.51.

In reply to Ald. Dunnet, who asked whether it was his intention to levy for Sinking Fund, the Chairman said he thought it best to allow the City Council to apply to the Sinking Fund. The question of expenditure for the current year, in the different departments was then taken up. The estimate submitted by the Public Works Committee was \$16,181.40. Ald. Diamond proposed that this estimate be reduced to \$8,000—besides the \$2,000 to be taken out of this year's income towards the paying of Front Street—making a total of \$10,000. (\$2,000 towards the paving of Front St. was taken out of last year's income.)

Ald. Starling objected to this low estimate. Over \$7,000 of work had already been done, and a large amount of repairing work had yet to be carried out. It would be absolutely necessary to have this work done, or the city would be threatened with serious damage.

Ald. Diamond thought the people would be willing to have less improvements and pay less taxes.

Ald. Frost did not think it true economy to curtail the expenditure on streets.

A lively discussion ensued on the question as to whether certain sums came out of the taxes of 1881 or 1882, over which there was a confusion of ideas. The Chairman asserted that there was a fictitious idea in the minds of most people that at the beginning of each year the city was starting with a balance, and that being the case, it was actually borrowing each year from the revenue of the previous year. He declared that since 1868 there had not been a single year when there was not a large deficit. We were getting behind every year, and the only way was to take the bill by the horns, begin now, and levy a rate high enough to cover the expenditure and to log down the expenditure to the lowest possible figure.

Ald. Frost moved in amendment that the estimate for Public Works, independent of the pavement on Front St., be reduced to \$12,000.

Ald. Vandusen moved in amendment that the expenditure be \$10,000, besides the pavement of Front St.

The last amendment was lost. The first amendment was lost. The estimate was \$16,181.40.

Ald. Frost's amendment reducing the estimate to \$12,000 was carried.

Ald. Diamond asked that the vote be recorded, which was done as follows:—Yeas—Smith, Melnichuk, Laroche, Holden, Starling, Lingham, Frost—7. Nays—Diamond, Vandusen, the Mayor, Frost—4.

The next item of expenditure considered was that of Water and Gas. The estimate submitted by the Committee was \$5,410.24. The estimate was approved by the Council.

**THE BATTLE OF THE NILE.**  
It was in 1798 that the British fleet, under the command of Admiral Nelson, defeated the French fleet, under the command of Admiral Brueys, in the Battle of the Nile. This was a decisive victory for the British, and it marked the beginning of the end of French power in Egypt. The British fleet, consisting of 19 ships of the line, defeated the French fleet, which consisted of 13 ships of the line. The British fleet was commanded by Admiral Nelson, and the French fleet was commanded by Admiral Brueys. The battle took place on August 1, 1798, in the Bay of Aboukir, Egypt.

# CONTINUATION OF THE GREAT SALE AT THE GLASGOW WAREHOUSE.

THIS sale will be continued until the end of the month. We remind our friends of the GREAT BARGAINS that we are offering, both in BRIDGES, DAMS, DAY GOODS, and in DAY GOODS that are not damaged at all. We have added large quantities of these goods during the last two weeks, but have still a few lines left that we will close off very cheap, as we must clear them all off by the end of the month. For purchase for the FALL TRADE, we must be had in such large quantities, that we must have more room for them.

Very Cheap Tapestry and Union Carpets.  
Some very fine LUXURY CARPETS at 40 cents per yard, and another lot of TAPESTRY at 30 cents. They are decidedly the cheapest in the market.

BELLEVILLE, MONDAY, AUG. 7.

### City and Vicinity.

Mr. M. R. CANNETT, of Winnipeg, is in the city on a short visit.

The adjourned meeting of the Finance Committee will be held this evening.

Mr. D. P. FURBER has returned home from his summer trip down the Gulf.

The thermometer registered as high as 90° in the shade yesterday, on Front St.

The boys Wilson, Coyne and Arnold, who were caught bathing last evening, will be prosecuted.

The work of paving Front St. between Campbell and Hotel St. will be finished on Wednesday.

The boy who was so badly injured by being kicked by a horse in the head a day or two ago in Madoc, is recovering.

The Belleville Branch of the Brotherhood of Locomotive Engineers are making arrangements for an excursion to Campbellton on the C. & W. Monday.

Three boys who were bathing publicly in the river last evening were caught by Officer Hayes and brought to the police station, but were allowed to go home during the night.

Rev. D. MITCHELL, of this city, lectured in Winnipeg on Monday last on the subject of "What is a name?" The Free Press says that "the reverend gentleman's eloquence and powerful excellent entertainment for his hearers."

DAVID DOWNER, the horse thief, was brought before Judge Pralack this morning, and convicted of the offence the particulars of which our readers are already acquainted with, and was sentenced to one year in Central Prison.

Mr. O. S. of the Madoc Review, has ordered a copy of the issue Saturday for a new year about to be organized in this city. The O. S. may expect a challenge from the new year when the season is out.

Wm. HARBOCK, charged with having committed a murderous assault on David McCulloch, was brought before Judge Pralack on Saturday afternoon. But the prosecutor not appearing, the prisoner was remanded until Wednesday, the 10th.

The funeral of the late Constable McGee of Peterborough took place on Saturday in that town, and was very largely attended, all the Town officials being present. Sergt. McCruden and Officer Neave represented the Belleville police force.

Mr. REVOLVO has secured the fastest open cabin steamer *Manitou*, of Montreal, (speed 16 miles per hour) for one grand speed excursion to the far-famed Thousand Islands and Alexandria Bay, for Monday, August 21st. See small bills and posters.

The only case at the Police Court this morning was that of Samuel Clarke, brought down on remand charged with the larceny of a plough-point from Walker's Foundry. There being no evidence for the prosecution, the prisoner was discharged.

F. ARKLES, son of Mr. Robert Arkles, fell down the long flight of steps leading up Meyer's Hill from St. James St., on Friday night, and had his skull fractured. He is now lying in a precarious condition, the injury having seriously affected his brain.

The leaves of periodicals on the tables in the Mechanics Institute reading room have again been mutilated by some vandals, extracts having been cut out. A reward will be given to any person who will give information which will lead to the detection of the party who committed the offence mentioned.

The rifle shots of the 15th Battalion are not satisfied with the result of the rifle competition on Friday—the four highest scores having been made by 4th marksmen. One of the 15th men have issued a challenge to any 4th man to shoot a match for any stake that may be desired.

If the challenge is accepted, the 15th will probably be represented by Lieut. Haggard and Pte. J. J. and Donald.

## THE WAR IN EGYPT. VICTORY FOR THE BRITISH.

Four British Killed and 29 Wounded.

A Number of Egyptians Captured.

THE ENEMY'S LOSS 300.

Prospects of an Agreement with the Porte.

ALEXANDRIA, Aug. 6, 6:30 p.m.—At 5 this afternoon the British troops, with a number of field guns, sailed by rail, and landed at the station of El-Mahout el-Khal and Cairo Railroad, being upon the enemy's position from three sides. The engagement, which is serious, still continues.

Arab soldiers with a white flag to the British camp this morning.

The party of the British troops, which was the interview with the enemy, was without result.

10 p.m.—The object of the operations to-day was a reconnaissance in force. Commencing at four o'clock this afternoon, the British advanced, and the enemy's position was reached.

St. Petersburg, Aug. 6.—It is reported that the British Government has received instructions to hold the British in readiness to embark for Constantinople in event of war between England and Turkey, which is thought to be imminent. It is believed that the war would regard such a conflict as an interruption of provisions where the present military tendencies of the country are at work.

LET THERE BE HARMONY IN THINGS ESSENTIAL - LIBERALITY IN THINGS NOT ESSENTIAL - CHARITY IN ALL.

BELEVILLE ONTARIO TUESDAY, AUGUST 8, 1882

Who can sell sewing machines the cheapest? THEIR MANUFACTURER. CAN THEY BE REPAIRED CHEAP? AT THIS FACTORY.

20 years' experience, steam power and good machinery, enable me to give my customers best value. Parties desiring to get a first class machine, would save money by getting the BARKETT SEWING. I have good working machines of other make, family and manufacturing, on hand very cheap. I also rent those made. I am the only manufacturer between Montreal and Hamilton.

THE UNLOVED WIFE.

By MRS. E. D. N. SOUTHWORTH.

'Now, if you object—'

'I do not object—I insist on talking you.

'You know she was your first love—'

'My first—and last—betrothed! You

'knew her first and ending love,

'amended Howard.'

'Oh! thank Heaven! breathed the

'young wife, almost faintly, as she said,

'You are not quite just to her! For

'the old woman who she married was more

'of a father than a husband to her; he

'doted on her from her infancy. She was the

'only creature in the world that he loved—'

'except her father.'

'She told me that.'

'He engaged himself to her that he

'might give her a little and leave her his

'fortune.'

'She did not need his fortune. She was

'his darling all his life.'

'I know, but still he wished to leave her

'his fortune, which she did not want.'

'He thought that she would marry him.'

'Yes, but he wished also to give her his

'title, the title which she said—'

'he should ask of the emperor, in lieu of

'the payment of many millions loaned by

'him to the emperor. He wished to amuse his

'pet.'

'Well, now! What has all this got to do

'with your telling the business your story to

'me?'

'The old man, who loved without self-love,

'discovered that his father's betrothal was

'very unwise, and proposed that for the reason

'that she should have a dowry that he could

'not come to, and she should be able to

'support herself as well as he could.'

'He pressed her for her consent, and she

'consented, and he gave her his title, and

'she was married to him.'

'I am not sorry, my dear, at all, if you

'accept it. I am not sorry, my dear, at all,

'if you accept it. I am not sorry, my dear,

'if you accept it. I am not sorry, my dear,

## Daily Intelligence.

WEDNESDAY, AUG. 10.

### City and Vicinity.

The calls were numerous last night.

Mr. Jones Wainwright, M. P., is in the city.

See J. S. Povey's advertisement of today.

Order McKinnon returned home from Montreal yesterday.

The excursion to this city from Oshawa is to be on the 20th, not the 19th.

The Holman Opera Co. have been booked at the Metropolitan Hall for Wednesday, the 30th.

Deary Louisa, Frontage Boys No. 1, Kingston, will have an excursion to Belleville on the 21st inst.

The extra Ball and Supper have been offered—the former to lead ore and the latter lumber at Suburban's.

Business the open air service this evening near the new City Mission School, corner of Church and Dundas Sts., at 7:30 D. V.

Will T. Soule, from Boston, called in 12 hours 170 tons, weight 387 tons, in Squire Creek. The largest one weighed 1 lb. This is the largest catch of the season.

The steam barge *Saxon* arrived safe in Trenton yesterday. She was very slightly injured by the collision with the *Kingfisher*. The latter vessel is being pumped out and will probably be raised tomorrow.

Mr. St. Charles shipped this afternoon the fine bus which was manufactured at the establishment of the Ontario Hotel of Peterboro'. Another bus for a St. Catharines hotel will be immediately commenced at his factory.

A. G. T. R. BREKEMAN married John McDougall, the two second figures of his left hand crashed last evening, while coupling cars. Dr. Farley attended to the injury, and it is not probable that amputation will be necessary.

THOMAS YENNER, tavern-keeper, of Trenton, was tried yesterday by Judge Bull of Trenton, and Geo. E. Bull, of this city, J. P., on a charge of selling liquor during prohibited hours. The defendant was convicted and fined \$20 and costs.

Mr. TRENKARD manager of the Woolen Mills in Campbellville, has been successful in his suit for the city today to give the people of that village a treat in the negro-mineral line. De bones, do bonjo, and a mouth organ comprised the instrumental part. The vocal performance was especially noteworthy, particularly during the rendering of "One more river to come."

The picnic of the sons of England at Massena Point yesterday was one of the most enjoyable of the season. The rain fell in the city did not reach the Point, and the excursionists had a dry as well as a high time. Various odd country dances were indulged in—concluding chiefly of those of the country. The great crowd for men, boys, and girls, walking a groovy path extended over the water, rounders, quoits, &c.—and were participated in by old and young, to the great enjoyment of all. About 500 picnicers from the city were at the Point.

WEATHER PROBABILITIES: Toronto, Aug. 10.—Light rain in the morning; dry weather, occasional foggy weather.

CONDENSED AIR BATHS.—Dr. Stone, manager of the "Condensed Air Bath" at Rochester, N. Y., is in town with a supply of interesting papers on this subject, which he desires to place in the hands of our citizens. This method of treating disease is attracting considerable attention in Europe after other means have failed, and we think this paper merits a careful reading.

THE W. C. A. AND THE CITY.—The action taken by the City Council in cutting down the estimate for Poor and Sanitary purposes for the current year from \$1,700 to \$1,200 has been the subject of much discussion. The W. C. A., to which has been entrusted the expenditure of the city funds for that purpose. The ladies of the Association deem the action of the Council unkind and ungrateful, in the face of the fact that the poor of the city have been better cared for, and at less expense, during their regime than ever before. The matter was considered and long discussed at the last meeting of the Association, on Tuesday afternoon, and the following resolution, moved by Mrs. Maclean and seconded by Mrs. May, was adopted with the unanimous approval of the members:

"That the Women's Christian Association decline to dispend the funds of the Poor and Sanitary Committee any longer, as they find the amount granted insufficient to meet the requirements of the poor of the city." This resolution was considered at a meeting of the Poor and Sanitary Committee held yesterday afternoon, and it was at length decided to further consider, with the hope that the ladies might reconsider their action.

The Association has so far this year expended \$928 on the poor of the city. The appropriation being \$1,200, they would thus have only \$272 to expend during the remaining five months of the year. Though it may be considered by many that the ladies have just cause for their indignation, the feeling of the City Council is that they should have continued to dispend the funds supplied them until the appropriation was exhausted: then if the Council refused to grant supplementary appropriations, they would have had to draw from their own pockets to meet the needs of the poor.

It is to be hoped that an amicable arrangement may yet be effected, and that the Association will reconsider its somewhat hasty action, for it is the general opinion that the poor funds of the city have never been so economically and effectively dispensed as they have been by the Association, and that it would be nothing short of a calamity were the ladies to give up the management of that department of public relations.

Alleged Theft at the Institute for the Deaf and Dumb.

The Housekeeper charged with Stealing Domestic Property.

An Investigation Instituted.

There have for several days past been rumors of a discovery which had been made at the Deaf and Dumb Institute of an appropriation by the Housekeeper of the institution, for private use, of the domestic goods which she had in her keeping. Indeed, the facts are already pretty well known to the public, for they came very early and very publicly revealed in the Police Court, but they have until now been kept out of the press for reasons which it is unnecessary to mention.

There had for some time been a strong suspicion that the household stores were being used for other than legitimate purposes, but it was not thought possible that the housekeeper, Mrs. Olimo, could have been implicated in their disappearance, for she had always been a most reliable and reputable person. On Monday, the 21st inst., however, an incident occurred which, it is thought, explains the mysterious disappearance of the housekeeper's stores. On that day, Mrs. Olimo, visited by her sister, Miss Ross, of Amelburg, the assistant carpenter, Mr. Langmuir, detected Mrs. Olimo going into the store-room, and seeing something, climbed up to a window and saw her place several rounds of sugar in a bag and fill a pitcher with butter, and then go out of the room, looking at the door behind her. Langmuir then entered by the window and saw a small box, and it was at length decided to further consider, with the hope that the ladies might reconsider their action.

The Association has so far this year expended \$928 on the poor of the city. The appropriation being \$1,200, they would thus have only \$272 to expend during the remaining five months of the year. Though it may be considered by many that the ladies have just cause for their indignation, the feeling of the City Council is that they should have continued to dispend the funds supplied them until the appropriation was exhausted: then if the Council refused to grant supplementary appropriations, they would have had to draw from their own pockets to meet the needs of the poor.

THE WAR IN EGYPT.

THE PORTE SUBMITS.

ARABI FORTIFYING NEFISSA.

LONDON, Aug. 10.—The submission of the Porte to the British demands is complete. A draft of the proposed Military Convention between England and Turkey was submitted and approved by Lord Salisbury. The Turkish contingent of 5,000 men will land near Ashmuk, where the principal fighting will be done, and where they will have the money of the British Commander should any signs of treachery be detected. The draft of the proclamation declaring Arabi rebel has also been presented to the Ambassador. It declares all his officers rebels and gives them three days to lay down their arms. The actual submission of the Kalish to England's supremacy cannot but make a wonderful impression upon the Mohammedan world and restore British prestige in the East to its former high standard. Osman Bey, who remained loyal to the Khedive, has escaped from Cairo and is now in the fortifying Nesha, the junction of the Nile, Ismailia, and Cairo railways, near Zagazig, with the evident intention of conducting any advance on Cairo, in a week at the latest. Mr. Mackenzie's report that the British had captured the Khedive's army, without any sign of resistance, is a gross exaggeration. The British have not yet been able to capture the Khedive's army, and the British have not yet been able to capture the Khedive's army.

DO YOUR CHILDREN.

Have pits or convulsions, grind their teeth, pick their nose, have a bad breath, or a change of appetite? Are they restless or fidgety at night? If so, ask your druggist for Dr. Smith's German Worm Remedy (take no other) it only costs 25 cents. It is simple, pleasant and safe. If there are no worms in the system, it will still be good for them. It tones up the system, and will save many a Doctor's bill. A word to the wise, etc. Thousands of testimonials.

PROCLAIM IT FAR AND WIDE THAT DR. VAN BUREN'S KIDNEY CURE will not immediately cure you, but it will save you from the most important of the ailments of the body, and will ultimately cure you effectually.

## CONTINUATION OF THE GREAT SALE AT THE GLASGOW WAREHOUSE.

THIS SALE will be continued until the end of the month.

We remind our friends of the Great Warehouse Sale that we are offering, both in BELLVILLE and in the City.

We have sold larger quantities of these goods during the last two weeks, but have still a few left that we will close out very cheap, as we must clear them all off by the end of this month.

Our purchases for the FALL TRADE will soon be in hand in such large quantities, that we must have more room for them.

We are offering some:

Very Cheap Tapestry and Union Carpet.

Some VERY PAIR CARPETS AS LOW AS 40 CENTS per yard, and another lot of TAPETS at 35 CENTS. They are decidedly the cheapest in the market.

THE HON. MAURICE BOWELL INTERVIEWED BY THE PRESS CONCERNING THE MATTER TO BE REMEMBERED.

(From the Kingston News, Aug. 13.)

This morning the Hon. Maurice Bowell arrived on the steamer *Alexandria*, en route to Belleville. A representative of the press boarded the steamer at Gunn's wharf and sought an interview with the hon. gentleman concerning the much vexed question of "duy on shortage."

He was exceedingly kind. Mr. Bowell said that immediately on his return to Ottawa next week, he would lay the matter before the Government, when, no doubt, a remedy would be provided that would not interfere with trade, nor be any injustice to forwarders, but at the same time would save the customs of the country.

Reporter—Have you any idea what form the remedy will take? Will it be an extension of the duty?

Mr. B. I don't think it will. I have been informed that duty on shortage has only been collected when satisfactory evidence is not given that the amount of grain collected in the bill of lading was not shipped. I have received many letters from forwarders in relation to this matter. One of them stated that it was an outrage to collect duty on shortage of grain that never existed, but at the same time the forwarder had no compensation in deducting payment for shortage of captain's freight. The only way that I see that this matter can be remedied is by "a solemn declaration of our duty to the public."

Arab's Preparations Nearly Completed.

ALL QUIET IN ALEXANDRIA.

The Sultan on the Situation.

BOASTINGS OF ARABI.

LONDON, Aug. 14.—A night skirmish took place yesterday outside the Mokattam on the west of Alexandria, the combatants being a force of Bedouins and the British blue jackets and marines, with a small field piece, which drove back the enemy with no loss to themselves, but to their opponents. Arabi was yet some 500 yards off, but when the British were nearly completed, and the last of the Bedouins were on the ground, Tuesday evening, it is not impossible he may resume the offensive on Wednesday. A large force of British troops, appearing near the city, evidently meditating an attack. The British have occupied the water works, and the commander will tolerate no interference by Mr. D. Lesseps. The Guards have landed, and with the Duke of Connaught, their commander, have stationed under canvas at Ramleh. In Alexandria it is so quiet that the British marines, the last to remain of the foreign troops, have been recalled to their gun-boats from guarding the Egyptian Hospital.

NEW YORK, Aug. 14.—The *Herold's* Constantinople correspondent reports the Sultan as saying:—"The difficulties arising out of the breach between Arabi and the Khedive might easily have been arranged had the Sultan been more ready to listen to the advice of the British Government. The British have been recalled to their gun-boats from guarding the Egyptian Hospital."

BELLVILLE, THURSDAY, AUG. 17.

## Grain Shortages.

A great loss has been sustained, solely we believe for political purposes, over that city that has been changed on grain short. The Government has been abused for enforcing the law, but the law has been executed as calculated to injure the trading of the country. But how groundless the indignation of the Grit press has been, the report of an interview with Mr. Mingo, Collector of Customs at Winnipeg, will show. Mr. Mingo, who is one of the most competent officers in the Department, was formerly Collector at Kingston, and has therefore been in position to thoroughly acquaint himself with the law. He contends that the duty on shortage must be paid, unless it can be shown that the vessel did not take on the full cargo alleged by the bill of lading. The law is not made to be evaded, and the vessel passed through a great deal of Canadian territory before arriving at Kingston. It would be an easy matter to dump out a single grain, and the vessel would be liable for the cargo. The matter is not put in her, and inside a month hand in a certificate to that effect from the shipping port, no duty would be demanded. A guarantee was given, and the shortage should have occurred in Chicago. No duty was demanded. If in this case a certificate could be secured, why could not a certificate for 50 or 100 bushels shortage be likewise obtained? Mr. Mingo says there is no desire on the part of the Customs authorities to be tyrannical, but they have a duty to perform. The collector is placed in position to collect the revenue on all dutiable goods, and unless it can be shown that the grain was never put in the vessel, his duty is plain. The trouble appears to be that somebody has been wanting to do the shipping political capital, regardless of the injury done to the trade of the country in obtaining the end in view. How little ground there is for recent complaints is shown by the Kingston *Phy*, which shows that the steamship *Buenos Aires* lost the 150 pounds of wheat reported "short." The same paper says that the crew of another vessel which was short counted that owing to the swinging of the vessel away from the elevator stop to the loading port, on which the wheat went overboard into the river. The *Phy* also says: "Recently the schooner *Jamieson* was 40 bushels short, but the captain did not complain. He had the grain from the foreign of the ship, and it was damaged." The *Phy* is investigating the shortage complaints, and is bringing out the truth, no matter which side is hit. This is the proper spirit.

So far from the Government hampering the grain trade, they have been doing the exact contrary, the law having been framed with that intent, the requirements of the law being less strict with regard to grain than as to merchandise. The Government has been to prevent the smuggling of grain from the States into Canada, but in order to still further facilitate the trade, they will in all probability act upon the recommendation of the Minister of Customs, namely to accept a declaration of transit, which bulk has not been broken between the shipping port and the port of destination. This will remove any ground of complaint that the grumbling Grits and the advocates of the United States route may be able to urge.

## Belleville High School.

As our City High School will open Sept. 1st, this is a fitting time to say something of its functions and work. Every high school pupil should be prepared to enter, prepared at once with the subjects required for the Intermediate Examination. This, as its name signifies, is an examination coming so as to test the pupil during his High School course, and is a basis of classification. The value and importance of this examination would be little to impress upon the reader. The subjects of the Intermediate are: English, including grammar, dictation, history and composition; 2nd, mathematics, including arithmetic and drawing; and 3rd, an optional subject, which may be algebra and Euclid, or Latin, or Greek, or French and German, or chemistry or natural philosophy. By this it will be seen that there are virtually three departments at this examination, two fixed and one optional. Now any one who has passed the Intermediate, taking Latin, is prepared to enter at once on the study of Medicine and can be registered as a student in the College of Physicians and Surgeons of Ontario. The Intermediate is taken *pro tanto* by nearly all the examining bodies in Ontario. The subjects of the Intermediate are arranged as to include the courses required by the Incorporated Law Society of Ontario, the Ontario College of Pharmacy and other chartered societies as Entrance Examination. The Intermediate is also one of the examinations required to be passed by Public School Teachers. From these details it will be seen that the examination is of paramount importance to boys and young men. The time required for preparation for it will vary with the capacity and knowledge of the pupil, but it need not be more than two years from the entrance examination. In all these subjects the very best instruction may be had in our High School, and all our boys should be looking forward to passing this examination. A boy who has passed the Intermediate should then proceed with the Matriculation work for the University in the Law Society and should, if possible, attempt Honors. The student who has made a good Intermediate ought to make a brilliant examination before the University

to which he may be sent or before the Law Society, and thus get an earnest of an active career. We hope to long to see Belleville High School boys take the place high in the list of the Law Society and the leading Universities.

## Editorial Briefings.

One of these fellows in which the free-traders are so prone to indulge, will be found in the following, which is extracted from an article in the *Hamilton Times*, dated August 15th, 1882, under the heading of the United States Tariff Commission:

"We wonder if the Tariff Commission know anything of the value of the tariff. A Tariff man, seeing a potter, pays just high enough to get the potter to make a pot. The tariff is fixed by what the laborer can obtain in other occupations. The tariff on sugar was set at something like the price of sugar in other occupations. The tariff on sugar could easily reduce the laborer to the position of a slave. The laborer would take as much money without the potter being in existence as with it."

Now, we should say if the potter were not in existence, the laborer would not have any employment. Furthermore, the pot as a competitor for labor, assists in maintaining the rate of wages in other lines of business, according to the *Times* own showing. The workmen know that, by practical experience, hence they are the staunch and unwavering supporters of protection.

The Globe wants the duties on grain reduced, and it may say to the farmers, "Everything is protected but the products of the farm." The dodge won't work.

"That Husband of Mine"

Dungannon and Faraday Correspondence.

The spring here was unusually cold and backward, and it was generally supposed that the yield of hay would be less than a half crop, but warm weather and general showers at length came in, and the result was a fair crop. The grain of all kinds looks splendid, spring wheat in particular is uncommonly fine, and old residents say the present crop is the best they have raised since this county was settled.

The hilly Hastings road, which used to have such a hard name, has been greatly improved since the last few years, and is fast becoming a fine road. The sum of \$1,000 has been granted by Government this year to be expended between Amable and Bancroft on the Hastings Road; also a grant to improve the Monk Road east of Bancroft, another to extend the road on the town line between Faraday and Herschel, westward, and lastly a grant to improve the road between Faraday and Waddington. Here there is a large settlement, and within a circuit of three miles of the Faraday post office, there are some 60 farms located, representing a population of about 200.

Mr. H. Johnston is about to erect a grist and saw mill in this settlement and has just finished building the dam.

The improvement and extension of the above named roads will doubtless facilitate the settlement of the country; the County Council have liberally assisted us from time to time, and our local Council have worked strenuously to extend roads throughout the County, and the result is a steady migration into the municipality, so that we now have 120 Parliamentary voters, 247 Municipal voters, and a population of 1,000.

Our market used to be the lumbering industry, but the lumbering is gradually creeping away from us to the north, so that the building of a new home here from the front is becoming more and more a possibility, and for the purpose of disposing of our farming products, and also the great mineral wealth with which the country is richly endowed.

Bovine of the staff that pretends to cure these diseases, or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. Consumption, that dread destroyer of the human race, is the result of bad blood system. Borden's Blood Bitters cure the cause of this disease.

Prostateitis is far and wide that Dr. Van Buren's is a "fact." On their return, after spending some time, the cause, which was heavily laden with fat, was captured by a ball storm, accompanied by fierce and heavy squalls, compelling it to come into the water. Two of the Indians could swim, but even they were lost. The priest and the other two Indians being unable to swim soon sank; their bodies have not been discovered.

Excellent reasons exist why Dr. Thomas' Electrolytic Cure should be used in all cases of affections of the throat, tonsils, adenoids, rheumatic pain, corns, bunions, or external hemorrhoids. The remedy is simple, speedy, pure and unobjectionable, whether taken internally or applied externally.

THE RAILWAY "TYRANNY"

to which Manitobans are subjected.

Flourishes which speak volumes, and disprove the monopoly cry against the C. P. R.

(From the Winnipeg Times.) A story is going the rounds of the Reform press in the east to the effect that an Ontario passenger train had been charged "more for the right on the C. P. R. than would have been charged by the Grand Trunk for carrying it five times the distance."

Charges of extortion are easily made, but their truth or falsity can be ascertained by a simple test. The following is a complete statement of the C. P. R. rates and the winter rates of the Grand Trunk.

At a meeting of the Waterloo County Millers' Association, held at Waterloo, on Tuesday, after full discussion of the subject, it was decided:

1. To present a memorial to the C. P. R. asking for a reduction of the winter rates of the Grand Trunk.

2. To present a memorial to the C. P. R. asking for a reduction of the winter rates of the Grand Trunk.

# Daily Intelligencer.

WELLESVILLE, FRIDAY, AUG. 18.

Protecting the Protestors.

We have reason to believe that the de-

termination arrived at by Mr. Robinson

supporters at their meeting on Wednesday

last, namely to prosecute a number

of those members of the Grit party who

are known to be guilty of bribery, intimidation

and other corrupt practices, will be

received with general approval. Those

whom it has been resolved to proceed

against, and who, we presume, have been

served with the necessary papers, are:

Messrs. James Brown (the Grit candidate,

6 cases; Alexander S. Brown, 6 cases;

Thomas S. Curran, 6 cases; and George

Baucke, 3 cases. As the law provides a

penalty of \$200 for each offence, the

total cost of the prosecution is \$1,200.

In the case of the Messrs. Curran and

Baucke, \$600 in the case of Mr. Baucke.

The evidence of widespread and system-

atic bribery, intimidation and corruption

of various kinds, on behalf of the defeated

candidate in West and East Hastings is

very strong, but as the object is chiefly

the exposure of the leaders of the campaign

brigade, they will be proceeded against.

By entering protest against the return of

Messrs. Robertson and White, the "come-

along-John" men, who had "plenty of mo-

ney to put down" for bribery and corrup-

tion, have challenged an issue, and we shall

see how far their conduct anticipates them

to be considered the champions of electoral

purity, which they assume to be.

We know that the leading Reformers of

the East and West Ridings are opposed to

the protest, which they regard as by a few

whom "active extortion" did not meet with

as much success as they hoped for, and by

one or two who make money out of elec-

tions, and we venture the prediction that

the Reform party will not have cause to

thank these disinterested, disappointed

seceders.

Other suits are to be commenced at once

against parties in both Ridings, as to

whom evidence is being received.

## What Next?

The *Oshawa Express* asks this question,

which it answers as follows: The latest

move on the part of the Ontario Govern-

ment is said to be the contemplated ap-

pointment of school teachers. We are not

surprised at this—indeed could not be to

hear of their intention to appoint school

councils, school boards, clerks, treasurers,

&c. Already they have assumed the ap-

pointment of political division clerk and

balliffs, police, loan inspectors and

commissioners, and why not appoint school

inspectors, municipal officers, &c. It is

highly time that all parties—Real

Reformers and Conservatives—gave something

more than partisan attachment to the grasping

and tyrannical Government of the day.

One of prevention is better than a pound

of cure, therefore all sensible and liberal-

minded men should unite in cashiering at

the next election a set of grabbers who

have only distinguished themselves by self-

ish partisanship, men whose sole aim seems

to be personal and pecuniary advantages,

regardless of our rights and privileges as a

people.

## Editorial Privileges.

The *Winnipeg Times* furnishes a com-

plete refutation of the allegation that the

freight rates on the Canadian Pacific ex-

orbitant. The article is reproduced in an

other column.

The number of election petitions filed by

the respective parties is about equal, but

we expect to see the largest amount of

corruption shown on the part of the Grits.

In Prince Edward the disqualification

of the member-elect is probable.

The *Mail* says: "Mr. Blain is getting

roughly abused by the Grit papers for his

letter on the political situation. But we

do not see why. Did not Mr. Blain issue

a circular calling upon his friends to take

the line which he himself had taken? Did

not he himself say that he was defeated

so badly? Mr. Blain's answer is very

circumlocutory. He says: "I am not

Whilst correspondence will be accorded space for the expression of their views on topics of public interest, the Editor of the *Intelligencer* does not intend to be a medium for the expression of the views of any individual or party.

## "Corrigenda."

To the Editor of the *Intelligencer*.

Sir,—Will you allow me through your col-

umns to ask what you may concern:

1. Why is not the nightly and dangerous

outbreaks, reduced or removed?

2. Why are not the foot-paths on the south

side of the bridge repaired?

3. Why are the bookkeepers' boys allowed to

make noise in the City Post Office, during the daily

travelling of the daily train?

4. Are Midland trains allowed to exceed

legal and safe speed in passing Bridge Street

every day?

5. What has become of the Midland Elevator?

6. What has become of the Car Works? What of

the Water works? What of the Sanitary Com-

missioner?

6. Are there in Belleville too many axes to

grind?

7. Why are not the axes in Belleville on which

axes have been in *arsenal* for years sold for

the taxes? Let us be relieved from the op-

pressive assessment rate. Let us have a com-

petent salaried Assessment Commissioner, as

Kington has. Yours, etc. CALAMITY.

## That Husband of Mine

Is three times the man he was before he began

using "Wells Health Renewer." St. Drug-

gists.

## Sporting Notes.

The Campbellford and Peterborough

quilt players had a game on the grounds of the

club on the 14th. Campbellford won by a

score of 541 to 452.

The Campbellford *Herald* says:—Mr. W.

Ash, of Lakeside, formerly a resident of

Campbellford, in company with Mr. Nassau-

ro, shot a half-headed grey eagle, a short

distance below Ransay's Falls, on the 10th and

a half south of the village, on Thursday last.

The bird measured nearly six feet across the

extended wings.

The Peterborough *Leicester* Club will play

the Young Shamrocks in Montreal to-morrow

for the junior championship.

The international rifle match between the

Amateur Rifle Club, of New York and the

Victorias, of Hamilton, which was shot at

Hamilton on the 16th and 17th, resulted in

favor of the Canadian, by 10 points. The

conditions were: Six men each, 7 shots each

at 800, 900 and 1,000 yards. The aggregate

was: Canadian, 1,189; New York, 1,179.

The last match was won by Mr. J. B.

Forrest for the Amateurs, and 209 for the

Canadians by Mr. Margate. The New York

was never before defeated.

The Toronto Yacht Club have not yet fixed

the date of their annual regatta, but the pri-

ze list is already arranged, and is as follows:—

## CHAPTER I.

THE TRIAL.

And so the time passed to the day on which the judge entered the town to hold the assizes.

The docket was an unusually full one for the term, and many cases had to be tried before the judge could get through.

The first case was a charge of assault, and the defendant was a young man named John Robinson.

The remarkable feature in this case was the fact that it involved the first case of highway robbery that had occurred in the town for many years.

The case was heard by the judge, and the defendant was found guilty.

The case was then adjourned for the next day.

The next case was a charge of assault, and the defendant was a young man named John Robinson.

BELLVILLE, WEDNESDAY, AUG. 23.

## A Conservative Convention.

The Mail makes the following interesting announcement:

A convention of the Liberal-Conservative party, at the summons of Sir J. Macdonald and Mr. W. R. Meagher, is called for Wednesday, the 13th day of September, in Shattsbury hall, Toronto, at 2 o'clock p.m.

Not less than six delegates should be chosen from each electoral district; more than six may be chosen if desired.

The business of the convention will concern mainly, but the Dominion at large is interested deeply in the event.

How best to secure the Confederation from the active disloyalty of the small, how best to secure the National Policy from the organized hostility of the Irish Local Government; how best to secure one more, and retain forever, for Ontario, the destined exercise of her municipal institutions which is fast being forced from the people's hands; how best to secure the legal and final settlement of the territorial and financial questions affecting Ontario—these will be among the questions to be submitted to the convention.

## The Murray Canal.

We learn that the first end of the Murray Canal will be turned on Thursday, 31st inst., by Mrs. Keeler, widow of the late Joseph Keeler, M. P. This is a graceful recognition of the services of Mr. Keeler, who never ceased to agitate for the canal and to whose energetic much of the success of the project is due. Sir John A. Macdonald and other members of the Government are expected to be present.

## "Lay on, Macduff!"

The Grit party are weakening materially with regard to the protests, and their organ reflects their sentiments, evidence of which it gives by scolding and threatening. It says:

"We will only observe that, if Mr. Robertson and his supporters are in earnest, they will not only oppose us, but they will also carry out the protest."

It is one way to play it, and for every one who reforms himself of having violated the election act, six or more Conservatives will be made keen company. If retaliation is the rule of the Conservatives, we will retaliate.

So all of which we reply that Mr. Robertson's friends are not to be deterred from exposing Grit corruption by the threats of an antagonist whose crying out shows that he has been beaten.

And don't be like the "old man,"

Catch of the Bladder.

STROKING Irritation, inflammation, all Kidney and Urinary Affections, cured by "Buckley's."

## Government Advertising.

Very unfortunately for themselves, as the sequel proves, the Opposition organs have charged the Government with having an undue amount of advertising among the journals which support them.

The Hamilton Spectator takes up the subject and turns the tables completely upon the assailants of the Government as follows:

Yes; the Government pays out money to newspapers for advertising. Not a doubt of it. And the fact makes the Reform journals wild with rage. To think that public money is paid out and not to the contrary to the order of nature. And a contrast of the present time with the pleasant days when the Mackenzie Government was in power is really very instructive.

In order that reader who is not struck by the contrast, we have made a list of such items as could be gathered in a somewhat hasty search through the Public Accounts of some paid to newspapers for advertising and advertising in 1875 and 1881. It is as follows:

## That Husband of Mine

Is there three times the man he was before he began using "Wells' Hair Remover." Dr. J. Wells.

## Editorial Privileges.

The younger generation of mechanics are too intelligent to vote for the Globe's tedious starvation policy, so they lack in capacity, intelligence and pride in their work."

The Ottawa Herald pertinently remarks:—"Holidays are intended to afford relaxation, not to increase business. The National style of keeping them is, therefore, much to be preferred to that adopted by our American cousins. The latter seek to attract strangers to their cities on such days and pile up the profits. We generally close the stores, go out of town, enjoy ourselves for a small sum, and sacrifice for one day business to comfort."

During the month of July the receipts of the St. Lawrence Canal show a considerable increase over those for the corresponding month in 1881; and that in spite of the war and the drought, which has been threatening. For July, 1882, there were 4,000,000. According to the official returns this sum is divided as follows: 1,400,000 for the month of July, 1881, 1,140,000 for the second 10 days, with 75 vessels, and 1,626,000 for the third period, with 89 vessels. Last year the July receipts amounted to only 4,450,000, with 237 vessels; and during July, 1881, only 125 vessels passed through the canal, for which but 3,220,000 were paid to the company. The report further shows that during the first seven months of the present year 1,960 vessels traversed the canal, producing a revenue of \$6,360,000, whereas during the corresponding period in 1881 the 1,971 vessels which used it only produced 2,900,000; and the 1,273 which paid toll, from Jan. 1 to July 31, 1880, did not produce a revenue exceeding 24,500,000.

## The Hop Crop.

We have made careful enquiry through the Prince Edward District as to the season's crop of hops, and what we can say is that the quality is good, but the quantity will be seriously curtailed.

In the Ameliasburg district, many of the growers state that they will have half a crop; and in the Southwestern district, which is probably the largest hop growing district in Ontario, there will not be half a crop. One grower who has 34 acres, says that his wife has over quarter of a crop. Another that he has 24 acres, planted up July 17th this spring, and will not have half a crop on the balance. Other growers with from 10 to 25 acres say their crop will not average over quarter to half a crop. So that taking the County throughout, there is no doubt that the crop will not yield half that it did last year, some growers claiming not over one quarter.

Buyers are looking around, and offering to contract at 30c, but we have heard of very little contracts for that price, as growers are holding out for higher prices. Last year the Prince Edward district yielded about 120 tons. This year the yield will not exceed 60 tons.

## Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver diseases as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

## News Continued.

Hudson Bay stock sold in London on Monday at 52 1/2.

Victor Hugo has become so deaf that he cannot enjoy conversation.

The Allen steamer *Andromeda* is ashore on Crane Island, in the St. Lawrence.

The Provincial Lunatic Asylum is crowded and further provision will be made for the insane.

Gilbert Burns, Bangs, nephew of the poet Burns, has been arrested for the Glasgow riots.

The contract for the Renfrew section of the K. & P. Railway has been awarded to Andrew, Beattie & Co. The road will be completed by October, 1883.

Sir John Macdonald, who is reported to be in excellent health, is at Quebec transacting business with the Governor-General.

Previous to his departure for British Columbia, a large number of American tourists and sportsmen have been fishing in Coosaw waters in the Kingston district have been compelled to desert by the Dominion Fishery Inspector.

A sudden rise in the Rio Grande River carried away part of the International & Great Northern Railway and part of the Mexican National Railway at Laredo, Texas. The present railway communication with Mexico for several days.

The term *lupus* may be used to represent any malignant disease. If you would think of the disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—Dr. Sumner.

The burning of three waterworks in Western Texas caused unprecedented rain for three hundred miles. The territory between the Texas and Colorado Rivers are flooded to a depth of six inches. Several miles of the Texas Pacific railroad track are washed out.

Advices from Hermosillo, Sonora, say that in a night with Apaches in the Sonora district the Mexican troops lost 45 men, and the Indians lost 38 dead on the field. Eleven women and twelve children were killed on the road between Sonora and Trinidad.

The statements of Hon. John Carling's resignation of the Postmaster-Generalship are declared to be without foundation. He will, however, remain in the Cabinet, but personal affairs will prevent him from devoting to the public service the large portion of his time demanded by the duties of the office he now holds.

"Do body what you do at." Boldly do we affirm that Kidney-Wort is the great remedy for liver, bowels and Kidney diseases, and should be taken by all who are afflicted with these ailments before it is too late.

The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, or urine from diseased kidneys, it always cures.

An English correspondent says that Anthony Trollope is sick with Bright's disease, and is going to travel in India, where he will gather materials for a new novel; that Willie Collins' eyes are ailing, and he is writing by dictation; that Charles Reade is a good deal troubled by dyspepsia, and that Edmund Yates has taken a new novel.

A score or so of the men attending the meeting of the Ontario Rifle Association at Toronto state that they saw a serpent in the lake of the town of Hamilton. It was going towards a rapid race and appeared to be about sixteen feet in length. When the serpent disappeared below the surface. The announcement has occasioned considerable excitement.

A petition has been presented on behalf of Charles Scott, who now lives in Aberdeen prison awaiting his trial on a charge of robbing the mail train of the late Earl of Crawford and Balcarres, to the House of Commons. It is considered probable that the House of Commons will refuse the petition, in which case the trial will, in all probability, take place at the Aberdeen Court of Justiciary, which meets on 6th of September.

Eight Hundred Thousand People.

There are already booked for passage to this country in 1882, nearly a half million people, and it is estimated that 800,000 will emigrate from Europe and Canada to the West and North-west.

In consequence of this vast throng the "ALBERT LEA ROUTE," (CHICAGO, ROCK ISLAND & PACIFIC R.R.) has been compelled to stop upon its line an additional Fast Express train, composed of most elegant day and night cars, leaving Chicago at 11 a.m. and reaching Minneapolis at the next morning in ample time to allow them to dine at the Grand Hotel, and to make the connection for the morning and evening trains, to obtain their breakfast and make the connection for all points North or Northwest.

This train is run especially to connect with the new express train which the Northern Pacific and St. Paul Minneapolis and Manitoba Railroads (the latter connecting with the Canadian Pacific at St. Vincent) have just put upon their line.

The regular evening express train from Chicago, will be run as heretofore, and make the evening connections from Minneapolis for all points in the territory named above.

It is important, and travellers should bear it in mind, that there are no carriage transfers by the "ALBERT LEA ROUTE," passengers are required to make their own transfers at St. Paul.

This is the route to travel over for sure connections, and the pleasantest and most convenient for the Northwest (see page 1).

The train of the "ALBERT LEA ROUTE" leave Chicago from the depot of the GREAT ROCK ISLAND, the old favorite with travellers for Kansas, Colorado, New Mexico, Arizona and the Pacific Coast.

Send your address to E. St. John, General Ticket and Passenger Agent, Chicago, and obtain our new illustrated "WEEKLY TRAVELER."

## Daily Intelligence.

BELLVILLE, THURSDAY, AUG. 31.

## The Conservative Convention.

Yesterday reproduced an excellent article from the Montreal Gazette on the subject of the Ontario elections. With all the conclusions reached by the contemporary we heartily agree, except the last, namely that the National Policy ought not to be made an issue in the Provincial elections. The Gazette says: "Up to the point of its conclusion, but we hold that, as the National Policy has been made an issue by our opponents, we must meet them on that, as well as the other grounds in controversy. They openly and without provocation attacked the N. P., by formal resolution in the Legislature, and by the speeches of Ministers and their followers, which called forth the able address of Capt. Nesbitt, in which he declared himself in opposition to his leaders on that great question. Messrs. Mowat, Pades and Harty attacked it in speeches before the people, and Mr. Harty assailed it, in addition, in a most cowardly, mean and contemptible manner, and greatly to the detriment of the Province, with his soldiers. Grits having made the N. P. an issue, it is not for the Conservatives and supporters of the commercial policy of the country to decline to fight on that issue."

The other matters with which the Convention will have to deal, and to which, as far as the contest, no objection can be taken, are very numerous. The following is our idea of what they ought to be, and what the determination of the Convention will probably be with regard to them:

1. Settlement of the Boundary question on the terms proposed by the Dominion Government, namely, by reference to the Supreme Court, with right of appeal to the Imperial Privy Council.
2. Reformation of the License Law, at least to the extent of abolition of the License Commissioners and vesting the power of issuing licenses and appointing the officers in the Municipal Councils, as previous to the passage of Mr. Mowat's Act, and the payment of the fees, as before, to the Municipalities.
3. Abolition of the office of Minister of Education, and the placing of our educational system under a permanent non-political board.
4. Reform in the Crown Lands and Public Works Departments, including the letting of all works on Government roads by public competition.
5. Restoration to the Judges of the power of appointing District Court Clerks and Bailiffs, subject to veto by the Inspector.
6. Restoration to Sheriff of the power of appointing Gaolers and Turnkeys, for whose acts they are responsible.
7. Restoration to County Councils of the power to fix the salaries of Gaolers, Turnkeys and other officials, of which they have been unjustly deprived.
8. A readjustment of the law regarding criminal justice accounts, which has been altered by the Mowat Government so as to prevent any one in the County Councils from being held responsible.
9. Abolition of the iniquitous law which compels officers to have their printing done in the office of newspapers that support the Government, and makes authors who require the sheriff's services advertise in papers that support the Government of the day.

Taking these subjects in the order in which they are placed, it will be found that there is little to remark in regard to the first. The mode of settlement proffered by the Dominion Government is not only absolutely fair to all parties, but it is the only way in which a legal and binding decision can be reached. Therefore everybody who desires to see the matter removed from the political arena and to secure to Ontario her just rights, will vote for the proposition.

The license law is one of the very worst pieces of legislation that ever was passed into law in Canada. It not only robs the municipalities of a large portion of the revenue that should accrue to them, but deprives them of the power of regulating the traffic, and places those functions that should belong to the people's representatives in the hands of an irresponsible tripartite and an inspector in each district, who are chosen at will by the Government and who appoint them. Under this infamous law we have had here the legitimate fruits, the violation of the law by the Commissioners, they having been previously informed, aided for doing so; the blackmailing of applicants for licenses by the brother of a Commissioner; Conservatives deprived of their licenses in favor of Grits; the licensing of premises which would not be licensed but that the owners are Grits and other forms of "purity" in the interests of the Grit party. To crown all, the Government dismissed an inspector because he would not make of himself a political tool, and at first promised, but afterwards declined to hold an investigation into the blackmailing which we have openly charged many times and are ready to prove if given the opportunity. The passage of such a villainous Act, under which they have grasped power, ought alone to consign the Mowat Government to dismissal from the office which they hold.

The third paragraph is perhaps the most important of the whole. The experiment of conducting the Educational affairs of the country by a political hand has proved a disastrous failure, and must always do so. Mr. Crooks has changed, and altered, and pettered the Teachers, and the inspectors, and the Trustees with regulations and orders, and the result has been to sap the very life of the admirable system which was built up by the late Rev. Dr. Byrnes. Perhaps Mr. Crooks might prove to be no worse than any other political hand, but new heads succeeding other other would make changes in order to show that they were not mere figure-heads, the danger of the Grit system is that it is a system ultimately inevitably injurious to the country would be very great. Again, when a political head...

head would be a colleague would feel in honor bound to succumb, and in the event of a non-political permanent head would be elected, without question, by either party. Furthermore, the present Government propose to take power of appointing teachers, a tremendous innovation which we cannot for a moment imagine the people are prepared to submit to. By all means, let politics and the Government be divorced. The alliance is an unholy one and ought not to be allowed to continue.

The fourth paragraph relates to a matter of much importance, the removal of the four months of letting out of public, taken outside to feather the nests of political friends at the expense of the public.

The three following paragraphs relate to the Government of the Government of powers which they have seized in order to maintain themselves in office, and which, with their grasping under the license and other laws, constitute a tyranny which we cannot believe the people will patiently endure. Liberals in name, our Ontario rulers are tyrants—in a petty way it is true, but tyrants none the less. By their change in the law regarding the administration of criminal justice, Mowat & Co. have cast a large portion of the expenditure which ought to be met by the people, upon the municipalities. This course they have taken in order to make it appear that they are living within their income. The fact is that they were not the income much larger now than when Macdonald was in power, owing to an increase in the subsidy from the Dominion, and had not the Government sold large tracts of timber lands, their profligacy would have caused the expenditure to exceed the receipts, even with their trickery of casting a considerable share of the financial burden which they ought to bear upon the municipalities. This additional expenditure thrown on the County Councils has been taxation, therefore only those who are in favor of high taxes will support the Government.

It is unnecessary to deal with the press patronage law, which stands alone of its kind in any country, so far as we are aware. It carries its condemnation on its face, and ought no longer to disgrace the statute book.

These are but some of the topics on which we hope to have a formal declaration by the Conservative party in convention assembled, and we hope to see Hastings fully and ably represented at that Convention.

## Editorial Privileges.

Our local contemporary was boiling over with indignation at the alleged gerrymandering by the Dominion Government, yet it coolly recommended Mr. Mowat to perpetrate a gerrymander in the Grit interest. Consistency is evidently a virtue for which our contemporary cares not a button.

The INTELLIGENCER is distressed because two or three Conservatives were not this year given licenses by the appointing authority. Our contemporary evidently thinks every one who is not a Conservative is a Grit, and is therefore entitled to the entire services of the vulgar Grit.

Nothing of the sort. What the INTELLIGENCER complained of was that, while Conservative tavern keepers who had excellent accommodation and did a legitimate county trade were refused licenses, Grits who had no accommodation, and whose taverns were mere grog-shops—were licensed. Let the WHIG do justice in the matter.

In our article on "The Protestants" yesterday, the petitioner in the East Hastings case was inadvertently styled the respondent.

## From Brandon.

BRANDON, AUG. 26.

To the Editor of the Intelligence.

The crops around here are looking fine. Brandon is growing rapidly. The streets are being graded, and another boom is expected soon. The country around here is being fast settled up. Mr. Hendricks, of Trenton, has a fine farm a few miles to the west, and the Messrs. Anderson, formerly of Amherstburg, have a beautiful farm of 400 acres, a few miles south of this place. Enormous quantities of hay are being stacked, with dry, honest hay and everything around presents a business-like appearance. The train now runs to Regina, the light metropolis of the North-west. Having at Fort Qu'Appelle, I found an old friend, H. Ketcheson, formerly of Redwoodville, who is on the police force and is highly esteemed by his officers. Land around the Fort is a sandy loam. Yours &c. W. T.
